FOR IMMEDIATE RELEASE

GW TO HOLD FREE POETRY WORKSHOP

A FREE poetry workshop, led by the award-winning poet Julia Alvarez, will be held September 6th through November 29th at The George Washington University. The workshop meets Thursdays from 8:00 to 10:00 p.m. and is open to all writers regardless of their academic background. Ms. Alvarez is GW's Visiting Lecturer in Creative Writing. Her first book of poems, published by Grove Press, will be in bookstores by the end of August.

The deadline for application is August 10th. To apply, send 5 to 10 poems, (totalling no more than 10 pages), a letter of application including name, address, home and work telephone numbers, and a brief personal history to:

Department of English
The George Washington University
Washington, DC 20052

A self-addressed-stamped-envelope is required for the return of application materials. For further information call 676-6180.

VICTORIA HIRSCHLAND, center, daughter of Mrs. Dorothy Hirschland of Wilson, Wyoming, is shown with Associate Dean of The George Washington University National Law Center E.A. Potts, left, and GW President Lloyd H. Elliott, right, before the recent annual commencement of the GW National Law Center. Victoria received the degree of Juris Doctor (With Highest Honors) as well as two awards at the commencement. The awards were the John Ordronaux Award, given to the student who attained the highest cumulative average in the second-year, full-time course during the 1982-83 academic year; and the Charles Glover Award, given to the student who attained the highest grade in the third-year, full-time course during the 1983-84 academic year. Now a resident of Washington, D.C., Victoria grew up in Wilson and was graduated from Jackson Hole High School. In the fall, she will join the Washington branch of Debevoise & Plimpton, a New York law firm.

PROFESSOR ABDELFATTAH M. ABDALLA DIES

WASHINGTON, D.C. -- George Washington University Professor of Engineering and Applied Science Abdelfattah M. Abdalla died Sunday, July 22, 1984, in an automobile accident in Cairo, Egypt. He was 46.

Born in Egypt on September 10, 1937, he held degrees from two Egyptian universities, B.S. (1960) from Ain Shams University and M.S. (1963) from Alexandria University, as well as from the University of Maryland. He received his Ph.D. in February 1970, from Maryland. From 1960 to 1964, he was a research electrical engineer working on the design of digital circuits at the National Research Center in Cairo. He came to the United States in 1965 as a graduate student at the University of California at Berkeley. After studying there for two years, he enrolled at the University of Maryland in 1967 for the completion of his doctoral studies. From 1960 to 1969, he was an instructor at Ain Shams University during the summer months.

Dr. Abdalla came to The George Washington University School of Engineering and Applied Science in September of 1969 as an assistant professor of engineering and applied science. He was promoted to associate professor in 1974 and to full professor in 1979. He assumed the chairmanship of the school's Department of Electrical Engineering and Computer Science on July 1 of this year. He left for Egypt last Thursday, July 19, for what was to be a two-and-a-half week stay.

Professor Abdalla was co-author, with GW Professor of Engineering and Applied Science A.C. Meltzer of a two-volume text on the design of digital computers,

Principles of Digital Computer Design, Vol. 1, 1976, Prentice-Hall. Volume 2 was submitted to Prentice-Hall in 1983 for 1984 publication. He was a consultant at the Naval Research Laboratory, NASA, and the University of Maryland Department of Agriculture. His papers appeared in many professional journals, including the Journal of the Association for Computing Machinery, of which he was a member. He was also a member of the Engineering Society of Cairo.

Dr. Abdalla was a resident of McLean, Va., where he had moved approximately one year ago. He had lived since 1976 in College Park, Md., until his recent move with his family to McLean.

Survivors include his wife, Dr. Wagida Abdalla, staff physician for the GW Student Health Service; two children, a son, Sherif, and a daughter, Noha, (of McLean); two brothers, Ibrahim Abdalla of Cairo, and Hanafy Abdalla of Aswan, and a sister, Mrs. Mohammed Hassan of Cairo. He was the youngest of the four. Services and internment took place in Aswan, Egypt.

A memorial fund has been established in his name at the university. Contributions may be sent to the Abdelfattah M. Abdalla memorial fund, Development Office, 701 Gelman Library, The George Washington University, Washington, D.C. 20052.

PROFESSOR ABDELFATTAH M. ABDALLA DIES

WASHINGTON, D.C. -- George Washington University Professor of Engineering and Applied Science Abdelfattah M. Abdalla died Sunday, July 22, 1984, in an automobile accident in Cairo, Egypt. He was 46.

Born in Egypt on September 10, 1937, he held degrees from two Egyptian universities, B.S. (1960) from Ain Shams University and M.S. (1963) from Alexandria University, as well as from the University of Maryland. He received his Ph.D. in February 1970, from Maryland. From 1960 to 1964, he was a research electrical engineer working on the design of digital circuits at the National Research Center in Cairo. He came to the United States in 1965 as a graduate student at the University of California at Berkeley. After studying there for two years, he enrolled at the University of Maryland in 1967 for the completion of his doctoral studies. From 1960 to 1969, he was an instructor at Ain Shams University during the summer months.

Dr. Abdalla came to The George Washington University School of Engineering and Applied Science in September of 1969 as an assistant professor of engineering and applied science. He was promoted to associate professor in 1974 and to full professor in 1979. He assumed the chairmanship of the school's Department of Electrical Engineering and Computer Science on July 1 of this year. He left for Egypt last Thursday, July 19, for what was to be a two-and-a-half week stay.

Professor Abdalla was co-author, with GW Professor of Engineering and Applied Science A.C. Meltzer of a two-volume text on the design of digital computers,

Principles of Digital Computer Design, Vol. 1, 1976, Prentice-Hall. Volume 2 was submitted to Prentice-Hall in 1983 for 1984 publication. He was a consultant at the Naval Research Laboratory, NASA, and the University of Maryland Department of Agriculture. His papers appeared in many professional journals, including the Journal of the Association for Computing Machinery, of which he was a member. He was also a member of the Engineering Society of Cairo.

Dr. Abdalla was a resident of McLean, Va., where he had moved approximately one year ago. He had lived since 1976 in College Park, Md., until his recent move with his family to McLean.

Survivors include his wife, Dr. Wagida Abdalla, staff physician for the GW Student Health Service; two children, a son, Sherif, and a daughter, Noha, (of McLean); two brothers, Ibrahim Abdalla of Cairo, and Hanafy Abdalla of Aswan, and a sister, Mrs. Mohammed Hassan of Cairo. He was the youngest of the four. Services and internment took place in Aswan, Egypt.

A memorial fund has been established in his name at the university. Contributions may be sent to the Abdelfattah M. Abdalla memorial fund, Development Office, 701 Gelman Library, The George Washington University, Washington, D.C. 20052.
